## Information from the Thursday, June 26, 2025, special meeting

# ‘Special-purpose’ vehicles now allowed on city streets

An ordinance approved by the Winchester Board of Commissioners now allows "street-legal special purpose vehicles" on city streets.

The ordinance, passed on second reading during the June 26 commission meeting, stems from Senate Bill 63, which was enacted by the Kentucky General Assembly during the 2025 legislative session.

According to the ordinance, "the City of Winchester recognizes the potential benefits of allowing 'street-legal special purpose vehicles,' including enhanced

transportation options, support for rural economies, and promotion of adventure tourism."

"Street-legal special purpose vehicles" are defined in the ordinance as vehicles such as ATVs, UTVs, minitrucks, and certain military vehicles that have been modified or purpose-built to meet specific safety and equipment requirements, allowing them to be legally operated on public roads.
